THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

WEDNESDAY, OCTOBER 20, 1869.

PLUNDERING THE STATE.

When the Governor gave his sanction to the Penitentiary swindle, when he approved of the sale of the North Carolina eight per cent bonds at 65 cents in the dollar, which had brought and were then worth par, when he silently acquiesced in Dr. Sloan's vile sale of cotton belonging to the State, we did hope it had thrown so much suspicion upon him that he would fear to give his sanction to any other schemes for the plunder of the State. But the Governor went to New York with Dr. Sloan, A. J. Jones, Littlefield, Jenkins, the Treasurer, and the whole Ring. The Governor placed the Ring master, Littlefield, the *Standard* man, in a position to plunder as State Printer. How he is plundering will more fully appear when his bill, as State Printer, is examined.

We heard, at the Henderson Fair, that there was a plan on foot to lease, for twenty years, the North Carolina Railroad, and that certain gentlemen were to have good places for twenty years instead of four.—On Monday we heard that the Road had actually been leased for $240,000. Quietly leased, not publicly. There was no advertisement to see who would give more.

It may be proper here to add that our assistant, Mr. Moore wrote the editorial which appeared in Monday's paper, approving the lease. We know something of this transaction, and yet we don't know half. The effort was made at the last session of the Legislature to sell the Road. If General Littlefield had not been forced to leave the city and absent himself until the Committee on bribery and corruption was discharged, we think the bill to sell the Road might have passed.

A friend of the lease says the bonds are now in the city to buy the Road, and he believes to buy the Legislature too, if that is a necessary preliminary to the purchase of the Road. We know nothing of that, there is little to be made by embracing one robber to keep from being plundered by another.

Two hundred and forty thousand dollars per annum for a Road, whose nett income last year was $316,638,81! This year the receipts are larger and the expenses less. We think the Raleigh & Gaston Road pays one third of 240,000 per annum to the North Carolina Road, as a bonus for that Road to favour it in the shipment of freights. If the Road should do no better than it did last year, it will pay annually, for twenty years, $76,638,81, to the Raleigh & Gaston Road, and for what? Let Governor Holden answer!

Littlefield is said to have received $100,000 to get $2,000,000 appropriated for the Chatham Road. How much has or will be paid to accomplish this advantageous lease, does not at present appear. If money is wanted to get the lease consummated, the Raleigh and Gaston Road can afford to pay half a million of dollars and then make money. This should be called Dr. Sloan's sale or lease, aided by Windy Billy Henderson, who was honorably acquitted by a jury of his countrymen for mule stealing. Neither Sloan nor Billy would have sold or disposed of a hog which they owned without more public notice than they gave in disposing of $5,000,000 of property, three fourths of which belonged to the people of the State.

The Wilmington and Weldon Road, we have no doubt, would be a competitor of the Raleigh and Gaston in bidding for the North Carolina Road. We have not heard a word from any one connected with that road—but we venture, that Road will give one hundred thousand dollars per anum, more than the Raleigh and Gaston Road has given. This would make, in the twenty years, 2,000,000 more than the State would get from the Raleigh and Gaston Road. Let us say, to Stockholders, don't sell your stock for $65, it will soon be worth par. Let us say, don't confirm the lease made of Dr. Sloan and Windy Billy. If you wish to lease the Road, put it up to the highest bidder.

Dr. Sloan cheated you in the sale of your cotton, don't let him cheat you in the sale of your Rail Road property.

The paper for this week must be given to the Fair. We shall recur to this lease and plunder of the State again. We regard it as a penitentiary transaction, and, if good, can be made better by putting the property up to the highest bidder.

We learn from the *Western Democrat*, that a meeting of the Trustees of Davidson College, held in Charlotte on Tuesday last, W. J. Martin (formerly Professor of Chemistry in the N. C. University) was elected Professor of Chemistry.

The election of a Professor of Languages was postponed till the next annual meeting of the Board. Mr. Winn of South Carolina was continued as Tutor of Greek and Latin.

The College has recently purchased in New York the "Brumly Cabinet," one of the most valuable collection of minerals &c. ever made in the Southern States.

The Stockholders of the Wilmington, Charlotte and Rutherford Railroad meet in annual meeting in Charlotte to-day.

LEAGUES AT THEIR MURDER—NO CALL FOR TROOPS.

We learn that Mr. James Haughton, of Chatham, riding the big road, was fired upon by the Leaguers, six bullets struck his horse, killing him instantly. Mr. Haughton escaped with a broken leg and other serious injuries. Of course the Governor will not send Bosher and his militia to arrest the members of his murderous League, for, they are all "loyal".

We learn that Mr. H. was suspected of having been to a secret political meeting, and the cursed assassins of another secret society ambushed him. The number of bullets in the horse show there were quite a number of the League engaged in this attempt at murder.

Governor, you are the President of all the Leagues, as you value the peace of society, dissolve your house burning, murdering associations. Instead of attempting to form a third party go to work, call for an interview with the President of the Ku Klux, and you and he make peace and dissolve your damnable associations.

We have reason to believe that you sent your son Jo, your Detective, and others of your League, to take our life at the depot. If you did not send them, you approved in a public speech of their mission. The man who could approve, we know, is none too good to have prompted the act.

We call on Governor Holden, the President of the Leagues, to join with the President of the Ku Klux, in giving peace to the country. If he will do that, we will forgive him the part he bore in the attempt of his League to murder us. In the name of God and the innocent we say, let us have peace.

The following closes our notes taken on Monday; we shall resume them in our next issue and give a more full and complete list, Mr. Battle's address occupying our available space to day.

GEN. D. M. BARRINGER exhibits a large number of very unique and interesting articles, gathered abroad, among which we noticed a saddle cloth or "Manta," from Valencia, Spain, an old Spanish stiletto, a buhl-work cigar case, from Paris, fragments, with inscriptions, from the walls and floor of the Alhambra, an ancient Roman armlet, from the ruins of Pompei, an Ottoman cover from Timbucoo, specimen of marble from the Pyrenees, and several other articles in the same line.

Mrs. Bessly exhibited a case of fine Millinery from her establishment on Fayetteville Street.

Two Pianos, by Charles M. Steiff, of Baltimore, attracted considerable attention.

Our townsman, N. S. Harp, had on exhibition four beautiful buggies, that can not be excelled, we think, for style and finish any where. They attracted much attention.

We noticed screw plates, monkey wrench, crimping irons, and other tools, of North Carolina manufacture, but did not learn the name of the manufacturer.

Some beautiful shoes, made by Mowatt of Raleigh, was exhibited by Mr. D. C. Murray.

Wm. B. Hutchings exhibits saddles and harness, of very superior quality, and of home manufacture.

A large lot of fruit trees, and some fine specimens of fruit, by Westbrook of the Ridgeway orchards and nurseries.

J. Lindley & Son also have a great variety of fruit trees and fine fruit, from their well known nursery and orchards.

Daniel Brown, a colored man, exhibits a nice chair, made and bottomed by himself. It really deserves a premium, we think.

Our townsman H. T. Clawson, exhibits a number of samples of upholstery, three American fruit pieces, Mirrors &c.

A. T. & O. RAILROAD.—We learn from the *Western Democrat*, that the injunction which was granted against the issue of $2,000,000 of State Bonds to the A. T. & O. Railroad (known as the Road from Charlotte to Statesville) has been dissolved, and that the Public Treasurer has issued the bonds to Mr. Johnston, the President of the Road. How, when and where the injunction was dissolved, we are not informed, but presume we could find out if it was necessary to investigate the matter. It is said the injunction was dissolved several weeks ago, but we only learn the fact a few days since. We are glad, however, that there is now no excuse for delay in commencing the work on the Road, and we hope it will be pushed forward to early completion. The work ought to have been commenced long ago.

Judge Watts is the officer who granted the injunction against the issue of bonds to this Road—we know he had no good legal cause to grant the injunction—no doubt he had good cause to dissolve it.

THE WESTERN N. C. RAILROAD—STOCKHOLDERS MEETING—ELECTION OF OFFICERS.—According to call, a meeting of the Stockholders of the Western Division of the above named road was held here on Wednesday last.

On motion, General J. C. Abbott was called to preside, and G. M. Roberts appointed Secretary.

George Gahagan, Esq., represented the State stock.

The following Board of Directors was chosen. G. W. Swepson, T. L. Clingman, J. C. Abbott, W. W. Rollins, R. M. Henry George Gahagan, G. W. Dickey, J. R. Edmonds, M. S. Littlefield, A. T. Davidson, Joseph Keener, A. H. Jones.

The Board of Directors elected General M. S. Littlefield as President. Mr. Swepson declined to allow his name to be used for the position.

On motion of General R. M. Henry G. M. Roberts, Esq., was re elected Secretary and Treasurer, and J. C. Turner as Chief Engineer of the Road.

The reports of the President and Chief Engineer were presented and adopted.—The meeting of the Directors was still in progress as we go to press. We will have a full report in our next issue.—*Asheville Pioneer.*

The Congregational Church in Trempeleau, Minn., has hung a triangle in place of a bell.

The colored men in the neighborhood of Macon, Ga., have raised $200,00 worth of cotton this season. Many of them invest their earnings in land.

ADDRESS

Of K. P. Battle, Esq., President of the N. C. Agricultural Society, at the opening of the 9th Annual Fair, Oct. 19th, 1869.

Fellow members of the North Carolina Agricultural Society, Ladies and gentlemen:

Nine times have seed time and harvest come and passed away since we met together at an Annual Fair. Nine years so crowded with strange and momentous events that they loom up in the memory like a generation! It is, therefore, proper that I should, at this new beginning of our yearly meetings, speak a few words of history and of explanation.

On the 18th of October, 1853, less than half a hundred enlightened men, realizing by experience, that that those engaged in the industrial arts, to be most effective, should be organized, assembled in this city to form the North Carolina Agricultural Society.

It is alike interesting and mournful to read over the names of its founders, and to note how many fail to appear among us today. Some, after long lives of usefulness and honor, others cut off in the prime of manhood, all well remembered by the good deeds they have done, sleep peacefully under the green earth. There was the venerable William Boylan, who, with sterling good sense and far-seeing enterprise, was one of the fathers, not alone of this Society, but of the Railroad system of the State.—There was Charles L. Hinton, long occupying the chair of Treasurer of the State, against whose spotless integrity, private malice nor political rancor ever breathed a whisper. There was John A. Gilmer, as a statesman wise, as a lawyer able and adroit, whose heart was always open and impulses ever kind. I notice the name of one whose clear intellect and sound judgment needed only ambition to have made him one of the most conspicuous statesman of his time, Lewis Thompson, of Bertie. From the foot of the Blue Ridge came the eloquent and astute John Gray Bynum. From the valley of the Yadkin, appeared the generous and genial John A. Lillington. I see the names of Col. Roulhac, of Raleigh, famed for his public spirit and unbounded hospitality, and of our estimable friend, Robert W. Haywood, whose body we have but lately followed in sorrow to the grave. In that list, too, may be found the names of that excellent man Sidney Weller, of Halifax, one of the founders of grape culture in North Carolina, of Wm. F. Collins, so long the Comptroller of the State, of the veteran Editor and well read scholar, Thomas J. Lemay, and we pause with a peculiar pang over that of another, who, leaving a successful political career, plunged into the late deadly struggle, and on the rugged heights of Sharpsburg, in the meridian of a brilliant life, fell in a cause to which he had given all the energies of his nature. Your hearts tell you, I speak of the lamented G neral Branch.

Others might be added to this list of honored dead, but these will suffice to show the character of those who stood at the cradle of our Society.

I will not call over the names of those who have been spared to witness the revival of our Fair. I cannot forebear however, to offer my heartfelt congratulations, that the first President of the Society, John L. Dancy, of Edgecombe, and its second President, Richard H. Smith, of Halifax, and two of the first Vice Presidents, N. W. Woodfin and William R. Pool, are now or will be with us, during this week, still active and most valuable members, still ready, in the future, as in the past, to co-operate in every enterprise, which will advance the interests of agriculture, the honor of this Society, and the prosperity of the State they love so well. May their shadows never grow less!

Under the auspices of such men as I have mentioned, our institution sprang at once into widespread popularity. Its success was beyond the expectations of its most sanguine friends. The counties of the State, delighted to send to its annual gathering, their best and most intelligent representatives our citizens exerted themselves to make the Fairs worthy of North Carolina. Each successive year witnessed an improvement on its predecessor. All classes of Society, the young and the old, sedate matrons and blooming damsels, the rich and the poor, flocked to learn lessons of wisdom from the exhibitions of our natural products and the fabrics of our industry. Different sections were brought into familiar acquaintance; views were interchanged; enterprise stimulated, inventions aroused. The best things of one region were disseminated over others. The Society grew larger and stronger every year. It became more and more a favorite with our people. It was developed into an *institution*, widely known, dearly cherished, abounding in usefulness, influencing for good the remotest limits of the State.

I remember well the pleasant meetings we had in those good old days. I recall particularly the Fair of 1859. Our President was one whose early years, and middle age had been spent in close study of legal principles, which, retained by a memory of extraordinary power, made him one of the first jurists of the age. For years as Chief Justice of our Supreme Court his opinions were sought in distant lands for guidance in the most intricate questions of law.—When he stood on the table land which divides youth from old age, he employed his leisure hours in the practise of agriculture. He brought to this pursuit the same clear judgment and patient attention, which had made him famous as a lawyer. He gave it its true position among the arts and sciences. He regarded it as the most important in which men engage. He used all means to encourage the application to it of intelligence and science. On this account he was from the beginning a fast friend of this Society. He still lives, enjoying at the age of more than four score years the respect and veneration of all, a grand representative of the good old days. With mind still clear and strong, he watches with zealous interest the progress of the times. Though on account of the infirmities of age, his person is not among us, with the same hand, that for three score years, penned learned constitutional and legal opinions he has written as words of encouragement, and assurance that we have no well wisher more sincere than THOMAS RUFFIN.

At the meeting of 1859, I witnessed the reluctance with which the Society received the resignation of Judge Ruffin. The President elected in his stead, though a far younger man, has gone to his rest. He too was one of our warmest friends. He never missed an attendance on our meetings.—From the green pastures of the Jersey settlements always came his noble Devons, the admiration and delight of all spectators. He was a large souled and intelligent and progressive farmer. He was a kind and generous neighbor. The State lost a good citizen and the Society a valuable member, when death knocked at the door of Dr. WM. R. HOLT.

When the Society adjourned in October 1860, none doubted but that we should meet again in October, 1861. Anticipations were had of a Fair still more interesting and instructive. The State was growing rich. Railroads were hastening towards our mountains, opening up new and fertile regions, developing the resources of our forests and fields, our minerals and metals. The streams of emigration which for so many years depleted our strength and filled with the children of North Carolina, the highest places of other States, had in a measure ceased to flow. We were becoming a wealthy and prosperous people.

That Fair was destined never to be held. In the spring of 1861, when the bright sun was warming the earth, and quickening into life the seeds, which slept in its bosom, when the flowers were the scarcer, and the birds singing among the half formed leaves, when nature was very beautiful and the gift of God so kind, the passions of men flashed into consuming flame like gun powder at the touch of the electric spark. War burst upon us with all the suddenness and tremendous fury of a tropical storm. For four long years all the energies of our minds and the resources of our wealth were diverted to the work of destruction. The ploughshare was beaten into a sword and the pruning hook straightened into a bayonet. Men dug into the ground, not as a means for beautifying and adorning the earth, not to aid us in the progress towards more advanced civilization, but to obtain materials for artillery and rifles, supplies for the numberless demands of vast armies. The old fable of Cadmus seemed reproduced in reality. So suddenly did our people rush from the pursuits of peace to deadly conflicts, that even the very stones appeared to change into armed men. All classes and ages, the high and the low, the wise and the foolish, gray haired men and beardless boys, in sad ignorance of its countless evils and trials, dashed with reckless bravery and shouts of defiance into WAR.

The contest was such as might have been expected from the angry clash of Americans descendants of the fiery, proud and energetic elements of the best races of the world. History records no more terrible struggle, than that which for so many weary years demanded the offerings of all our energies and our wealth. All institutions, whose object was the development of the country into a higher refinement and more abundant prosperity, went down before the storm or dwindled into moribund weakness.

This Society shared the common fate.—In a few day after Southern artillery thundered on Sumter, these grounds were filled with volunteer troops drilling for the conflict. Since that time our buildings have experienced uses totally alien from the peaceful purposes of their construction. They have been barracks for gay and thoughtless soldiery. Over them for a long time floated the yellow flag of the hospital service. They have been converted into military dungeons. Instead of the grateful music of lowing Devons, or the shrill neighing of noble thorough breds, their walls have resounded with the loud orders of drill sergeants, the shouts of soldiers' revelry, the groans of the sick and the wounded, the sorrowful sighing of captives pining for the free air of heaven, the ceaseless tread of armed sentinels.

None of her sister States put forth a more earnest and determined effort, or suffered severer losses than North Carolina. Tens of thousands of her stalwart men, all the proceeds of the industry of her people for four years, and a large proportion of their personal property, their provisions and merchandise, their horns and cattle, were either consumed or exchanged for securities, have which become worthless in their hands. When the crash came on Johnson's surrender, the sun which rose from his Ocean bed on the morning of the 27th April 1865, shone on a people, almost destitute of the necessaries of life, with their circulating medium become waste paper, with implements of husbandry worn and broken, with fields waste and badly drained, with ditches filled and fences decayed, with defective animal power, and worse than all without capital wherewith to purchase these requisites to successful production.

What was not least in this catalogue of calamities was the sudden change in the system of labor. A race, whose fathers' fathers had been bondsmen, were lifted in a day from slavery to freedom. The land owner, who from childhood had been accustomed to despotic power over his dependants, found himself confronted with the unaccustomed task of suddenly dealing with his former slaves as hired laborers.—The contemplation of this difficult problem had filled the wisest philanthropists with dismay. On one side was the life long habit of arbitrary rule, on the other the training of unquestioning obedience. When suddenly the material power of the dominant race was broken and the servient race became lifted up to equality in political rights, the most enthusiastic advocates of social progess trembled at the likelihood of jarring discord, perhaps bloody strife to result from the clash of variant principles.

I hope I may be pardoned for saying that the history of the world will not show a parallel to the wonderful good sense and good feeling displayed by both races under these adverse circumstances. They have not as a general rule suffered the angry animosities, inspired by their losses of property, on the one hand, or on the other revengeful feelings engendered by fancied oppression, to prevent their harmonious co-operation in the new relations of employer and employee.

When the cloud of war lifted, throwing aside all supine repining over past losses, our people made a determined effort to attain renewed prosperity. With stout hearts they put their shoulders to the wheel.—The meagre treasure, which the temptings of want, or of delusive speculation, had not been able to disturb, nor the searching eyes of the plundering bummers discover, were brought from their hiding places in stumps of trees or deep dug graves, to be exchanged for provisions and implements, for mules and guano, and other necessities to successful labor. The close of 1866 witnessed a tardy return of cheering confidence and hope. As neighbor shook neighbor's hand, it was agreed that all was not lost, and that thereafter our path would be upward.

The events of 1867 overwhelmed our stricken people again with despair. After a, by no means, favorable spring, when the young crops were struggling to attain the necessary vigor, in the early days of July, the portals of Heaven were opened and the floods poured upon the land. The yellow waters rushed down the declivities, mocking all the devices of hill side cultivation, dragging with them the costly manures which had been spread over the fields. Dry ravines became roaring torrents, petty branches swelled into foaming rivulets.—From all quarters the hurrying streams gathered into vast masses which spread over the low grounds, submerging all the richest fields and most promising crops.—It was admitted that not since 1797, has there been more universal ruin, more utter devastation than was caused by this tempestuous season.

The evil was intensified by other causes, some of which were seemingly accidental, others the result of mistaken policy. Never before had investments so heavy been made in artificial manures. The high prices of 1866 had largely exceeded the culture of cotton, while the area devoted to breadstuffs was diminished. The Autumn of 1867 developed an extraordinary fall in the price of this staple, so that the unfortunate planter found himself overwhelmed by a combination of misfortunes, entirely unprecedented, which no fore sight could provide against and in no care was able to avert, never before had a return so meagre followed the farmer's labor.

Then by a curious perversity which baffled the most astute political economist, not in the history of cotton culture, had the staple commanded a price so insignificant in the proportion to the cost. The inflated labor market and excessive purchases of artificial manures, swelled the expenses of raising the crop to a point above the experience of the oldest cultivator. Moreover, in all the dreary catalogue of revenue exactions, there cannot be found so enormous a tax on the labor of the agriculturalist as was levied on cotton in the year of which I speak. The Hebrews, under the ancient theocracy, judged it no hardship, perhaps, to pay one-tenth of their income, because the tithe was devoted to the combined service of Church and State. This cotton tax being, in that year, *two tenths* of the gross proceeds of the farm, *for the State alone*, doubled the Heaven imposed tribute of the Jews. To crown these multiplied evils, the poverty and want of credit of the unfortunate victims, rendered them more unable to bear their reverses, than when in the olden times, the deficits of one year were made good from the accumulations of those which preceded it.

The disasters of the cotton planters were paralleled by those of the tobacco and corn growers. Manufacturing and mining and other industries, and professions, all of which are supported by agriculture, had their own losses to encounter, and will long look back with shuddering horror to the dark and bitter year of 1867.

I recall these things to your minds, my friends, not to set bleeding anew, wounds now, I hope, healed forever; but to unfold the causes of the long delay in holding our Fair, and the reasons for any deficiencies which may be observed.

Speaking for the Executive Committee, and the other officers, especially of our very active Corresponding Secretary, who seems to have the muscles of Hercules and the winged feet of Mercury, and of our collectors of funds, who have performed their thankless office with the same zeal and success which in honorable trade have enabled them to build lofty stores on the streets around our Market Square, and to those fair ladies who have cheerfully lent a helping hand, in the decoration and arrangement of Floral Hall, I will say, that we have done what we could to revive an institution, which we hope will be of such signal service in advancing the industrial arts in North Carolina. The long rows of new made stalls and pannels of fence, all of lumber, whose color, fresh and saffron, shows that a few days ago it was standing untouched and green, in the stately pine forests of Johnston, or the shady vales of the Dark Corner of Wake, are some evidence that we have not been idle. We began our task under many disadvantages, with not a few discouragements. Our grounds had become an open common where stray cattle grazed. Our buildings were filled with a numerous and untidy tenantry. Floral Hall had been torn down and scattered to the four winds of heaven. Every vestige of our track had become obliterated. Even the title of our land had reverted by the conditions of the grant to the city of Raleigh. Worse than all, interest in the Society seemed to have faded from the minds of men, and our Treasury was barren of funds.

Thanks to the kindness of our City Fathers, and to the generosity of the citizens of Raleigh, the title to our grounds has been again secured, and they have been prepared for whatever articles worthy of exhibition may be offered. While there will be no lack of objects of interest, at this beginning of a new era, we venture the confident hope, that hereafter our march will ever be upward and onward.

Our State has great natural advantages. We have blessings of the earth and the skies, of the field and the forest. Neither tornadoes, nor earthquakes, nor bitter cold, nor torrid heat, neither caterpillar, nor locust, ever turn our willing landscapes into a blighted wilderness. Above us the sun sheds his genial rays, around us play health bearing breezes, from the ground spring the numerous varieties of the vegetable kingdom, useful to man. Beneath us are the choicest minerals and metallic ores. Fat cattle browse on the perennial grasses which clothe the summits of our lofty mountains, while luscious fruits ripen without fear of frost. On the rich lands of our Eastern Counties grow rank great corn crops, which calls to mind the famed fertility of the valley of the Nile. Never do the boll worm or caterpillar or inundations completely destroy the gold bearing plant in the broad fields of our cotton belt. Intelligent industry seldom fails to reap rich rewards in the grain and tobacco lands of our middle counties. Our rivers as they rush in rapid descent from their sources in our mountain defiles, and break headlong over the barriers of the primitive rocks, supply water power illimitable.—Fuel under the ground and above the ground is accessible and cheap. Whatever may contribute to our comfort or luxury, whatever may aid us in the great struggle to subdue the forces of nature, our generous mother will amply furnish us, if we make an honest effort to obtain them. Give us intelligent industry guided by science and few States will surpass North Carolina in the race of which wealth and refinement and happiness are the prizes.

It is to incite to this industry and create or quicken this intelligence, that we are assembled together now. "As iron sharpeneth iron, so does a man the countenance of his friend." By our annual gatherings, improved breeds of animals will be more widely distributed, new processes of culture made known, our dominion over the material world extended by new application of machinery, mental rust will be rubbed off, faults detected and rectified, old erroneous ideas exploded. In a word in the largest sense we will EDUCATE one another.

Let us then determine that each annual Fair shall be hereafter greater than its predecessor. Let us seek to extend the popularity and influence of our Society. Let us not be discouraged by beginnings smaller than we hoped for. Let us aim at a grander success and more abundant usefulness.—Let us follow the counsels of America's greatest poet. Let us not "look mournfully into the past." Let us "wisely improve the present." "Let us like true and undaunted Americans," go forth to meet the shadowy future, without fear and with a manly heart."

Valuable Farm for Sale.

WE WILL SELL on Tuesday, the 23d day of November next, at 11 o'clock, A. M., on the premises, the valuable and well known Farm "Belgrade," lying in Washington County, containing 2,250 acres; of which 850 acres are in a fine state of cultivation, and well adapted to the production of Wheat, Corn and Cotton. The remainder is well timbered.

This Farm can be easily divided into a number of small farms.

There is a large two-story Dwelling and all necessary out-houses, offices, barns, Stables, &c., on the premises.

This is one of the finest and most desirable Farms in the State, and well adapted to the growth of the Scuppernong and other grapes.

Terms, one-fourth cash, and a liberal credit on the balance.

WHOLESALE & RETAIL DEALER IN FOREIGN and DOMESTIC

DRY GOODS.

WIDE AWAKE HOUSE!

DOWN STAIRS FULL; UP STAIRS FULL; SHELVES FULL; PILED ON THE COUNTER; PILED ON BOXES AND ALL ABOUT THE HOUSE!

COME TO CREECH'S!!

DRESS GOODS! DRESS GOODS! In great variety; Styles new; Goods pretty, cheap enough to buy.

FRENCH MERINOES,

In which I recognize no competition, as they will be sold just as cheap as they were when Cotton was 10 cents per lb. and money equivalent to gold.

ALWAYS COME TO CREECH'S to buy MERINO DRESSES for my money is as good as anybody's; I bought them as cheap as anybody, and I intend to sell as cheap as anybody. That's the way to talk it.

GOODS FOR MEN AND BOYS' WEAR,

such as Kentucky Jeans, Tweeds, Satinets and Cassimeres. No better assortment or greater variety in the city. In fact, I have enough to keep the boys, the youths, the young men and the old gentlemen, all warm. Step in at Creech's and look at them before you buy.

HATS! HATS! HATS!

For Gent's, Boys and Children. Pull off your old summer hat; it's too late to wear it now; style is changed. In fact, a new hat looks best, anyhow. Call at Creech's corner and examine, before you buy a new Hat.

SHOES! SHOES!

One among the largest and best assortments in the City. Come, pull off your old shoes, throw away those that are worn out, and put on a new pair. Keep your feet dry, and preserve your health. Always come to Creech's before you buy.

Ladies and Misses' Hats! Hats!

No use to talk. The style has changed. Spring and Summer styles are out of vogue; so go to CREECH'S. HE ALWAYS KEEPS THE NEW STYLES.

LADIES' BONNETS.

Some small enough; some large enough; some trimmed; some untrimmed. It won't do you any harm to call at Creech's before you buy.

CLOAKS AND SHAWLS.—A Fine Assortment.

Now don't you think you had just as well step over to CREECH'S, and look. Probably you will save time and money. In fact, that is just the very place to get the worth of your money; and permit me to tell the people, that when they visit the City, to COME TO CREECH'S, for thousands who have come, acknowledge the truthfulness of my assertions.

I have more to say to you, but will tell you the balance at my place of business.

Fine Scuppernong Wine and Brandy, W. H. Jones & Co.

A lot of fine flour, meal, and new caught mackerel: B. P. Williamson.

LARGE CABBAGE.—Mr. F. C. Christophers has our thanks for the fine large cabbage which he sent us yesterday. Mr. C. has just received a couple crates of them which he will sell cheap. Call on him at his store, North of Market square, formerly occupied by Jeff. Fisher Esq.

At the meeting of the State Agricultural Society, to be held at the Capitol, this evening, essays (heretofore announced) on the following subjects will be read: Manufacture of Iron, Manures and Composts, Cultivation of the Grape, Manufacture of Shoes, Raising and care of Bees.

N. C. INSTITUTION, FOR DEAF AND DUMB AND THE BLIND.—There will be an Exhibition and Concert given by the pupils of this Institution to morrow afternoon at 4 o'clock. This is in order to afford visitors in the city, attending the State Fair, an opportunity of witnessing the method of instruction, proficiency and of the pupils. The public are invited to be present.

We return our thanks to Mr. W. H. Lyon for the fine and delicious oysters which he presented us with last evening. Mr. Lyon atways keeps the best on hand for his customers.

We had the pleasure of seeing in our sanctum yesterday, Messrs. Yates of the *Western Democrat*, Burton of the Petersburg (Va.) *Index* and James of the Wilmington *Journal*.

We hope to welome many other of our brethren of the Press before the week closes.

DR. BERNHARDT, will remain at his head quarters at the Yarborough House in Raleigh, during Fair week, where he may be consulted by persons desiring to procure assistance for their eyes. He is doing a very large business and is in daily receipt of letters from persons desiring his services.

SPLENDID RAFFLE.—For a fine pair of fillies, a close match 3 and 4 years old very gentle and kind, with a beautiful pony phaeton and harness complete, to come off at the Fair grounds Thursday 21st inst.—For further particulars call at Messrs. W. H. Jones & Co.

We have seen the above turn out and can truthfully describe it as "splendid." The team are gentle and kind in harness, and the phaeton and harness would not discredit a Revenue Collector or Insurance Agent.

EVENING LECTURES IN THE ROMAN CATHOLIC CHURCH, COMMENCING TO NIGHT.—A lecture, will be delivered in St. John's (Catholic) Church this and each succeeding evening during the continuance of the State Fair. *Admission free.* Lecture to commence at 8 o'clock precisely. Gentlemen will be at the door for the purpose of providing seats for strangers.

MIND YOUR EYES.—I. M. Davis, the North Carolina optician, who fits glasses to all eyes, will be in Raleigh on Tuesday, and remain during the Fair. His glasses are good as well as cheap.

Our thanks are due to the Whiteville Wine Company for a couple of bottles of their delicious Scuppernong wine.

MR. RATTLE'S ADDRESS.—Any one failing to read this address will deprive himself of a treat most rare. It will fully repay perusal, being well conceived, instructive and most appropriate to the occasion.

At the close of the address, a very pleasant incident occurred. Rev. J. Brinton Smith, the indefatigable Secretary of the Society, arose in the stand and announced that to the energy and untiring effort of the President, Mr. Rattle, the Society was in a great degree indebted for the gratifying success of the Fair; and called for "three cheers for Mr. Battle," which were heartily given.

There was a meeting of the State Agricultural Society held last evening in the Hall of the House of Representatives.—No business of importance was transacted, except a proposition to apply to the Legislature for assistance in changing the Fair Grounds to Camp Mangum, putting the grounds in order and in making the improvements required. The subject wat postponed until to night, when that and other important matters will come up, and essays read, which all interested in the prosperity of the Society should consider.

The Tremaine Brothers gave an excellent concert at Tucker Hall last night to a large and fashionable audience. If the Hall can be secured they will repeat the entertainments this week, of which notice will bo given.

Pepper and O'Connor have everything good to eat and drink at their newly refitted Restaurant, so neatly painted and ornamented by Clawson. Every delicacy of the season may be had there, done up in the very best style.

There were a large number of entries for the Fair yesterday, which we shall notice fully as soon as practicable.

The only trial of speed in the regular programme, was between four year olds. Mr. Geo. Wynne entered Lady Alice, Capt. T. F. Lee entered Commodore, Mr. C. L. Moon entered Mack. The trot was to be decided by the best three in five. On the first round Mr. Moon withdrew his horse on account of his restiveness. Lady Alice took the premium in three straight rounds.

THE BROOKLYN LIFE.—The name of this Life Insurance Company is rapidly becoming a "household word" in this State. This is due both to the energetic labors of Capt. A. W. Lawrence, the General Agent in this city, and to the intrinsic excellence and liberality of the Company itself. It is the only Life Company in the United States, that guarantees a definite Cash Surrender Value fully stated on every Policy, so that the insured always has a regular *Bank note value* attached to his risk and knows precisely, with each year, what that value is. This admirable feature distinguishes the Brooklyn. It has no rival, in this respect, in America, though, in Europe, a Company, appreciating the attractiveness and merit of the feature, has successfully adopted it. In other particulars, the liberality and *progress* of the Brooklyn have been manifested, and we have seen certificates from highly responsible parties, bearing testimony to the enlarged spirit upon which it is conducted and its scrupulous fair dealing in paying losses.

Visitors to the State Fair would do well to call on Capt. Lawrence, the General Agent, at his office, on Fayetteville Street, who will take pleasure in making known all necessary particulars connected with his Company.

THE BAND.—The *Standard* says the North Carolina Land Company procured the services of the 8th Infantry band, to toot here during the Fair. We are sure the Land Company will receive the thanks of the *Standard* establishment and the negro convicts in the county jail for the enlivening "sarah nade," the band gave them on Monday night.

Don't forget to go to Tucker Hall this evening and hear Prof. Hewlett's lecture, "Muzzle that dog."

THE LOUISIANA EQUITABLE LIFE INSURANCE COMPANY OF NEW ORLEANS.—This is one of the very best companies in the country. It has the endorsement of Bishop Wilmer, Gens. Beauregard, Hood, Harry Hays and the leading men of New Orleans. General Beauregard says: "Its Officers and Directors have been selected from our most reliable and intelligent citizens.

Instead of sending $40,000,000 annually North, our citizens can find better companies at home.

Joseph Ellison, President, New Orleans Louisiana.

Morning Edition.

TELEGRAPHIC.

Tuesday Evening Dispatches.

OHIO.

COLUMBUS, Oct. 19.—Hayes's official majority is nearly 8,000. The Republicans have one majority in the House and three in the Senate, counting the Hamilton county Democrat.

VIRGINIA.

RICHMOND, Oct. 19.—In the House a communication was received from Gen. Canby, thanking them for the privilege of the floor voted him yesterday. The resolution relative to the recent Northern elections was tabled. A joint resolution me morializing Congress to grant a general amnesty in the manner prescribed in Section 3, of the 14th amendment. The resolution was referred to a Committee.

In the Senate a resolution, looking towards carrying out the educational provisions of the Constitution, was laid on the table, on the ground that such resolutions were not within the province of the Senate as now organized.

Both Houses went into an election of U. S. Senators and elected Lt. Gov. John F. Lewis for the long term, and Judge J. W. Johnston, of Washington county, for the short term.

The Wells Republican candidates, Alex. Sharpe and L. B. Chandler, received the vote of their friends. The election was made by a strict party vote, with the exception of those Wells members who voted for Lewis and Johnston.

FORTRESS MONROE, Oct. 19th.—The "Monitor Dictator" has arrived here from Norfolk.

TENNESSEE.

NASHVILLE, Oct. 19.—Balloting commenced today; the chances are in favor of Johnson.

FOREIGN.

CITY OF MEXICO, Oct. 12th.—Seward is at Manzanillo.

JUAREZ has gone to Manzanilla.

The Congress refuses to grant further Railroad contracts except to parties who show ability to fill them.

HAVANA, Oct. 19th.—Three steamers with troops have arrived here within forty-eight hours. Another steamer landed a thousand troops at Cienfuegos, and another arrived this morning filled also with troops.

LONDON, Oct 19.—An article in the *Times*, in discussing Prim's power says that no King can rule in Spain unless acceptable to Prim.

Tuesday Midnight Dispatches.

WILMINGTON.

WILMINGTON, Oct. 19.—The "Cuba" was libelled to-day, and the U. S. Marshal boarded her and demanded the surrender of the ship into his hands. Commodore Higgins declined to surrender his ship, except to an officer of the U. S. Navy, and under a direct order from President Grant.

After some delay, Lt. Commander Pierson, of the U. S. Gunboat "Frolic," went on board the "Cuba" and demanded the surrender of the vessel, and showing an order direct from the President, for the "Cuba" to be turned over to him.

Commodore Higgins then surrendered his sword and vessel to Lieutenant Commander Pierson, and himself prisoner of war to the United States, the Cuban flag was then hauled down by United States authorities, and the entire crew sent ashore in a penniless condition. The affair in some of its aspects is regarded here as an outrage especially in the turning loose in our city of over one hundred sailors and mariners entirely beyond restraint or control of officers.

In anticipation of trouble a large special police force will be put on duty to-night.

MARKETS.

NEW YORK, Oct. 19.—Cotton firmer, sales 2 000 bales at 16½; Flour less active, good rise unchanged; wheat heavy, 1 to 2 cents lower, Western winter red 1,50 to 1,55. Illinois 1,51, Michigan white 1,60 to 1 70; Corn 1 to 2 cents lower; Pork closed, at 30 75; Lard heavy, kettle 18 to 18½; whisky firmer at 1 21; Groceries quiet and dull; Turpentine 45 to 46; Rosin 2,18 to 8.

Governments closed strong at 20; Southerns dull, money more in demand, rates unchanged; sterling quiet 9 to 9½; Gold dull at 33, stocks closed steady.

BALTIMORE, Oct. 19.—Cotton dull nominally at 26; Flour active, prices unchanged; Wheat firm, prime to choice 1,50 to 1,55; Corn, white 1,00, yellow 1 15; Oats 58 to 61; Rye 1,15 to 1,18; Provisions unchanged; Whisky good demand, 1,21; Va's. old 46 bid 45½ asked.

WILMINGTON, Oct. 19.—Spirits of Turpentine steady but tight stock, sales at 41; Rosin firmer 1,60 to 2 75; Tar unchanged; Cotton firmer, middling 23.

GLASS SPECTACLES,

Superior to any other in use—constructed in accordance with the science and philosophy of nature, in the peculiar form of

A CONCAVE CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,

SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. **They can be worn with perfect ease** for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. **How to select Glasses. It requires** professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. **When the eyes ache or pain through** the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies; these lenses, by softening the rays effect a most agreeable sensation and give great relief.

4. **These spectacles are scientifically** adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work, or premature decay, by Dr Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. **After several years of public practice,** adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

6. **M. Bernhardt, to signalize himself** from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unquestionable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union

Raleigh, Aug 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles, and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read, or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.

CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr M. Bernhardt are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character, in various parts of our country.

WM. G. HILL, M. D.

Raleigh, N. C., Aug 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.

Very respectfully,
F. J HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.

W. H McKEE, M D.

Raleigh, Aug 25, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.

R. S. MASON, D. D.,
Pastor Prot. Episcopal Church.

Raleigh, Aug. 25, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of Spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved.

DRURY LACY, D. D.,
Late Pres't. of Davidson College, N. C.

Raleigh, Aug. 24, 1869.

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.

Pastor of the Presbyterian Church.

EXECUTIVE DEPARTMENT,
Raleigh, March 28, 1866.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public.

JONATHAN WORTH,
Governor of North Carolina.

State of South Carolina,
EXECUTIVE DEPARTMENT,
Columbia, June 19th, 1866.

Sir: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished me conclusive evidence of your scientific skill in optics and your thorough experience as an Oculist.

Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public. I have the honor to be,

Very respectfully yours,
JAMES L ORR,
Governor of South Carolina.

Wilmington, March 31, 1866.

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them and take pleasure in testifying that they enable me to see better than any others that I have used, while in his collection there seem to be some adapted to remedy any kind of defect in vision.

THOMAS ATKINSON,
Bishop of North Carolina.

Nashville, April 27, 1867.

The difference between Dr Bernhardt and most Opticians is, according to my observation, that while they pretend to more than they know, he knows more of his business than he professes.

SCHOOL BOOKS.

UNIFORM SYSTEM OF
TEXT-BOOKS
FOR NORTH CAROLINA.

Office Publishers' Sup't of Introduction,
RALEIGH, N. C., Sept. 21, 1869.

A DEPOSITORY has been established at Raleigh, in charge of Mr. Alfred Williams, for the following books, which were adopted Aug 9th, 1869, by the State Board of North Carolina for uniform use in the Public Schools:

PARKER & WATSON'S NATIONAL PRIMER.
PARKER & WATSON'S NATIONAL SPELLERS.
PARKER & WATSON'S NATIONAL READERS.
DAVIES' ARITHMETICS.
MONTEITH & MCNALLY'S GEOGRAPHIES,
MONTEITH'S YOUTH'S HISTORY OF THE U. S.
GREEN'S ONE-THIRD OF PENMANSHIP.

THE NEW DESCRIPTIVE GEOGRAPHY OF NORTH CAROLINA will be ready about the middle of October next. The maps, &c., are now being engraved as rapidly as possible. This work will be furnished with Monteith & McNally's Series, without extra charge.

PROF. JEROME ALLEN'S COMPLETE SYSTEM OF MAP DRAWING will also be furnished on the same terms as the books with Monteith & McNally's Series, without extra charge.

The books will be supplied at exceedingly low rates to the Public schools in the state.

Similar terms will be made accessible to private schools adopting the above named books uniformly.

Pupils attending the Public Schools will, in most cases with the state contract, be furnished with new copies of Monteith & McNally's Geographies and Davies' Arithmetics in exchange for old copies of Cornell's Geographies and Gracken-ridge Arithmetics, which they may possess.

Books will be supplied, carefully packed and shipped, by ALFRED WILLIAMS,
Depositary, Raleigh, N. C.

Teachers and Educators generally are respectfully invited to correspond with

C. W. LAMBETH,
Agent for the Publishers
and sup't of Introduction.

From Dr. WM. B. HARRELL, Prin. High School, Snow Hill, N. C.:

SNOW HILL, N. C.

"I am much pleased with both the Spellers and all the Readers; and as to the series of Geographies by Monteith & McNally, I have long used no others when these could be obtained.

From Rev. ALBERT SHEPHERD, D. D., Rector of St. Mary's School, Raleigh, N. C.

RALEIGH, N. C.

I have examined the Geographies—Monteith's [No. 4] and McNally's [No. 5] and find excellencies in both, which eminently entitle them to a wide circulation. It is my purpose to introduce Monteith's [No. 4] into my school. I give it the preference for the information which it gives on the subject of Physical Geography. The maps and questions in both works seem to me to be admirable. ALDERT SHEPHERD.

From J. W. GULICK, A. M., Prin. Male Academy, Goldsboro', N. C.:

GOLDSBORO', N. C.

I find your books are in use in many Schools in this section. The teachers speak in the highest terms of your Readers and Geographies, and of Peck's Guides in particular.

J. W. GULICK.

From Col. WM. BINGHAM, Prin. Bingham School, N. C.:

The introduction of so much valuable matter on the subjects of Physical Geography and Geology, and in a form so simple and intelligible, makes it (Monteith's Intermediate Geography) in my judgment, a charming school book.

"We shall introduce Davies' Bourdon, perhaps others of your books."

From Dr. CLOSE, Prin. Durham Academy, N. C.:

DURHAM, N. C.

I design introducing the present edition McNally's Geography and Davies' University Arithmetics; also Boyd's Elements of English Composition.

M. CLOSE.

From M. L. LITTLE, Esq., Prin. Pleasant Hill Seminary, Newton, N. C.

NEWTON, N. C.

Will introduce the University Arithmetic next term. Have examined it with much satisfaction. An admirable work. M. L. LITTLE,
Prin. Pleasant Hill Seminary.

From Rev. S. IVEY, Prin. Auburn Academy, N. C.:

AUBURN, N. C.

Monteith's Geographies are excellent works, and I shall introduce them into my school.

STRINGER IVEY.

From Prof. WM. A. OBENCHAIN, writing from Hillsboro' Military Academy, says:

The superior and durable style of binding of your works is a very great recommendation—one with which I have long been favorably impressed.

From J. E. DUGGER, Esq., Prin. Male Academy, Warrenton, N. C.

WARRENTON, N. C.

"Davies' Mathematics" was adopted by me in 1858, and, up to this time, I have examined no works superior to them as a whole.

I have examined, with a *view of introduction*, "McNally's Geography" [No. 5] and "Peck's Guide's Natural Philosophy." I consider them most excellent works, and shall put them in my boys' hands, at the earliest period. The Philosophy is truly an enticing work and must meet with universal commendation. J. E. DUGGER.

From W. C. KERR, State Geologist of N. C.

I regard Monteith's Physical and Intermediate Geography as one of the best books of its kind. It has several points of superiority over most primary Geographies; not the least of which, especially in the eyes of the juveniles, will be found in its attractive and very graphic illustrations. Another is the truly wonderful amount of substantial and really scientific information conveyed by these wood cuts, and the concise and lucid descriptions appended. But the chief excellence consists in this, that Geography is here treated from the only true and rational standpoint, viz: of Geology and Physical Geography; so that the learner arrives, by a natural and easy process, at the true conception of the earth as an organized whole; the designed result of successive changes and modifications, under the control of physical laws, constituting a true growth from a chaotic germ through manifold stages of progress, all pointing forward to its destined end as the home of living beings, and finally of man.

From Rev. O. D. BERNHEIM, Principal of Mount Amoena Female Seminary, Mount Pleasant, N. C.

MT. PLEASANT, N. C.

I have introduced your National Series of Readers with great satisfaction to myself and to our teachers. We find them to be excellent, just suited to our purpose.

With Davies' Mathematical Series we have been long familiar, and can find no good reason for changing them.

In the Primary Department we have Monteith's Geographies, and in the advanced classes we have introduced Peck's Ganot, with much success. O. D. BERNHEIM.

From Prof. JOS. H. FOY, President Stantonsburg Scientific High School, N. C.

WILSON, N. C.

I have carefully examined the claims of the different Series of School Books most prominent before the public at this time. I have tested the merits of many of them in the school and lecture-room, and feel no hesitancy in pronouncing the National Series of Readers and Spellers" the best with which I am acquainted. I shall henceforth use no others in my school, and I shall furthermore use my influence to secure their adoption into other Seminaries in this section.

I use Davies' Mathematical Series in my school. I consider his works incomparably superior in many particulars, even to Stoddard's Course, which is saying a great deal. In fact, I consider it the highest encomium in my power to bestow.

I use Monteith's Series in my school. They afford a gradual but thorough and systematic progression, from the simplest rudiments of science, up to a development sufficiently exhaustive for all ordinary educational purposes. Their very superior merit has led me to discard ——, which stands next best on the list.

McNally's, the fifth book of the course is decidedly the *chef d'oeuvre* of Geographies. No competent instructor can examine it for an hour without being struck with its extraordinary merit. J. H. FOY.

From the Statesville, N. C. *American*, February 26th, 1868.

We would call the attention of Teachers in Western North Carolina to the valuable School publications of this firm, which are equal to any in the Union.

Messrs. Barnes & Co., of New York, are now issuing large editions of these Standard School Books for the Southern states. The series consists of the National Primer, or Word Builder. National Elementary Speller. The National First 2nd 3rd, 4th and 5th Readers. This firm will allow no competition in the price of books published by them, which are among the best in the States.

From the Raleigh *Daily Progress*, Feb 20, 1868.

NATIONAL SECOND READER.—We have never examined a volume of its class which we could commend more cordially to parents and teachers.

From the N. C. *Presbyterian*, March 7, 1868.

NATIONAL FIRST READER.—We recommend it to all who desire a valuable book of instruction for beginners.

From the Wilmington, N. C. Daily *Herald*, 1868.

The National Series has attained probably a higher reputation than any other complete series of School Books now in existence.

IN THE SUPERIOR COURT,

William A. Wright, as Executor of the Will of Thomas H. Wright, dec'd, and others,

vs.

James G. Green, Mary B. Campbell and others.
Foreclosure of Mortgage.

The complaint in this action is filed for foreclosure of mortgage upon certain real estate situated near the City of Wilmington, to secure the payment of a promissory note under seal for fifteen hundred dollars, payable to Thomas H. Wright or order dated the twenty-sixth day of October, A. D., 1858, and executed by James S. Green.

The defendant, Mary B. Campbell, is summoned to appear at the term of said Court to be held at the Court House, in Wilmington, on the eighth Monday after the fourth Monday in February, A. D., 1870, to answer the complaint of the said plaintiffs. If the defendant shall fail to appear at that time, the plaintiffs will apply to the Court for the relief demanded in the complaint.

THE UTLEY
COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS surpasses all who use it, and the more so that a power so simple should so long have been wanting to mill. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes; and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring, and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS. H. BRIGGS. All are cautioned that as between this and any other there is no agreement as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

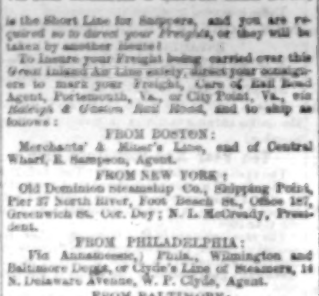
GULLETT'S COTTON GIN.



ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."

The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws; picks the seed cleaner; leaves no motes or nap; does not waste the lint by throwing it over the walls of the room where it is being ginned; does not cut the lint, but brings it out in beautiful bats.

Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages, over other Gins named in this advertisement, after fair trial, it will be no sale.

The "Gullett Gin" has been awarded the Premium at the several STATE FAIRS of Louisiana, Alabama and Mississippi.

I am Agent for its sale and would be pleased to fill orders.

"	22,304	15,00

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

KNICKERBOCKER,	$16,84
EQUITABLE,	17,44
NORTH AMERICA,	21,16
BROOKLYN,	21,09
UNIVERSAL,	27,24
JOHN HANCOCK,	18,27
THE NATIONAL,	63,48
THE ÆTNA,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It insured more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 589 policies, received an income of seventy-eight thousand dollars, and possessed net assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,437 new policies, more than any other Company, except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."
